

Graduation Project Proposal

- **Project Title:** PAYROLL PROCESSING IN AND MANAGEMENT IN ORACLE ERP.
- **Course/Track:** Management and ERP - Oracle Digital Human Resources specialist.
- **Team Members:**
 1. Aya Ibrahim Mohamed sleem
 2. Hadeer Aboelnasr Abdelhafiz
 3. Azza Abdullah meawad Ebead
 4. Jihad Nasr Mohammed Nour
 5. Marwa Adel Sobhi Saleh

Executive Summary

Al-Mostaqbal, a rapidly growing organization, faces critical challenges in payroll management due to manual processes, resulting in errors, delayed payments, and compliance risks. This proposal introduces Oracle ERP Payroll, a comprehensive solution to automate workflows, ensure accuracy, and align with Egypt's Vision 2030 for digital transformation. By leveraging Oracle's capabilities, Pioneers will achieve operational efficiency, employee satisfaction, and scalability, while adhering to Egyptian labor laws and tax regulations.

• Introduction and Background

As Al-Mostaqbal expands, manual payroll management has become error-prone and inefficient. Key challenges include:

- Time-consuming manual calculations leading to delayed payments.
- Compliance risks with tax regulations and labor laws.
- Lack of transparency in payroll reporting.

These issues impact employee trust and operational productivity. Our proposal addresses these gaps by modernizing payroll processes through Oracle ERP.

- **Proposed Solution & Add Value:**

- **Proposed Solution**

The payroll solution will be implemented using Oracle Payroll, a part of Oracle ERP's Human Capital Management (HCM) suite.

The key features include:

Automated Payroll Processing: Streamlined payroll calculations with pre-defined rules.

Integration with HR & Finance: Real-time synchronization with HR, attendance, and finance modules.

Tax and Compliance Management: Automated tax calculations, statutory deductions, and reporting.

Real-time Reporting & Analytics: Insights into payroll expenses, trends, and compliance.

- **Added Value**

Efficiency: Eliminates manual calculations and reduces processing time.

Compliance: Ensures adherence to labor laws and tax regulations.

Accuracy: Minimizes payroll errors with automation.

Security: Protects sensitive employee data with role-based access.

Scalability: Supports business growth with flexible payroll configurations.

- **Timeline and Deliverables**

The implementation of the Oracle ERP – Payroll System at Al-Mostaqbal Company will be executed in three main phases, each with defined tasks and deliverables to ensure a smooth and successful deployment. The estimated duration for full implementation is between 8 weeks and 6 months, depending on organizational readiness and resource availability.

Phase 1: Payroll Configuration and Employee Setup

Duration: 2 weeks

Key Deliverables:

- Define payroll elements (e.g., earnings, deductions, allowances)
- Set up employee payment methods
- Configure the payroll calendar
- Update and validate employee records in the system

Phase 2: Payroll Processing and Adjustments

Duration: 3 weeks

Key Deliverables:

- Conduct initial payroll runs and testing
- Process Quick Pay scenarios (e.g., bonuses, corrections)
- Manage payroll adjustments (retry, rollback, corrections)
- Generate and approve bank transfer files for salary disbursement

Phase 3: Payroll Reconciliation and Reporting

Duration: 3 weeks

Key Deliverables:

- Reconcile payroll data with finance department and bank statements
- Generate monthly payroll reports (e.g., deductions, tax summaries)
- Close payroll periods securely and accurately
- Conduct internal payroll audits to ensure compliance

- **Resources**

1. Human Resources

Project Manager to oversees implementation.

Oracle Payroll Consultant to configures and customizes payroll.

HR & Finance Representatives to provide payroll requirements.

IT Support Team to handles system integration and security.

2. Technical Resources

Oracle ERP Cloud or On-Premise.

Oracle HCM Payroll Module.

Database and server infrastructure.

Secure access control mechanisms.

Conclusion

Implementing Oracle ERP Payroll will transform payroll operations, ensuring efficiency, compliance, and seamless integration with business functions. We recommend proceeding with the implementation to enhance payroll accuracy, reduce processing time, and improve employee satisfaction.
